Magic book written by Clow Reed

LI SYAORAN

"If the seal is broken, disaster will befall this world!"

Sakura Kinomoto was just your average 4th grader—loved P.E., hated math. Until...

One day, while looking through her father's library, Sakura found The Clow, an enchanted book designed to hold a set of magical Clow Cards. But when Sakura opened the book, it was empty. Kerberos, the Creature of the Seal, emerged from the cover of the book and told Sakura the cards must be returned to the book. "If the cards aren't in the book, they come to life and do evil!" Talk about disasters!! Kero formed a contract with Sakura making her Cardcaptor. And together with Kero and best friend Tomoyo, Sakura embarked on a mystical journey to capture all the Clow Cards before they wreak chaos and destruction.

But I was so sur-prised ...
So what "could be"?
...can't remember.

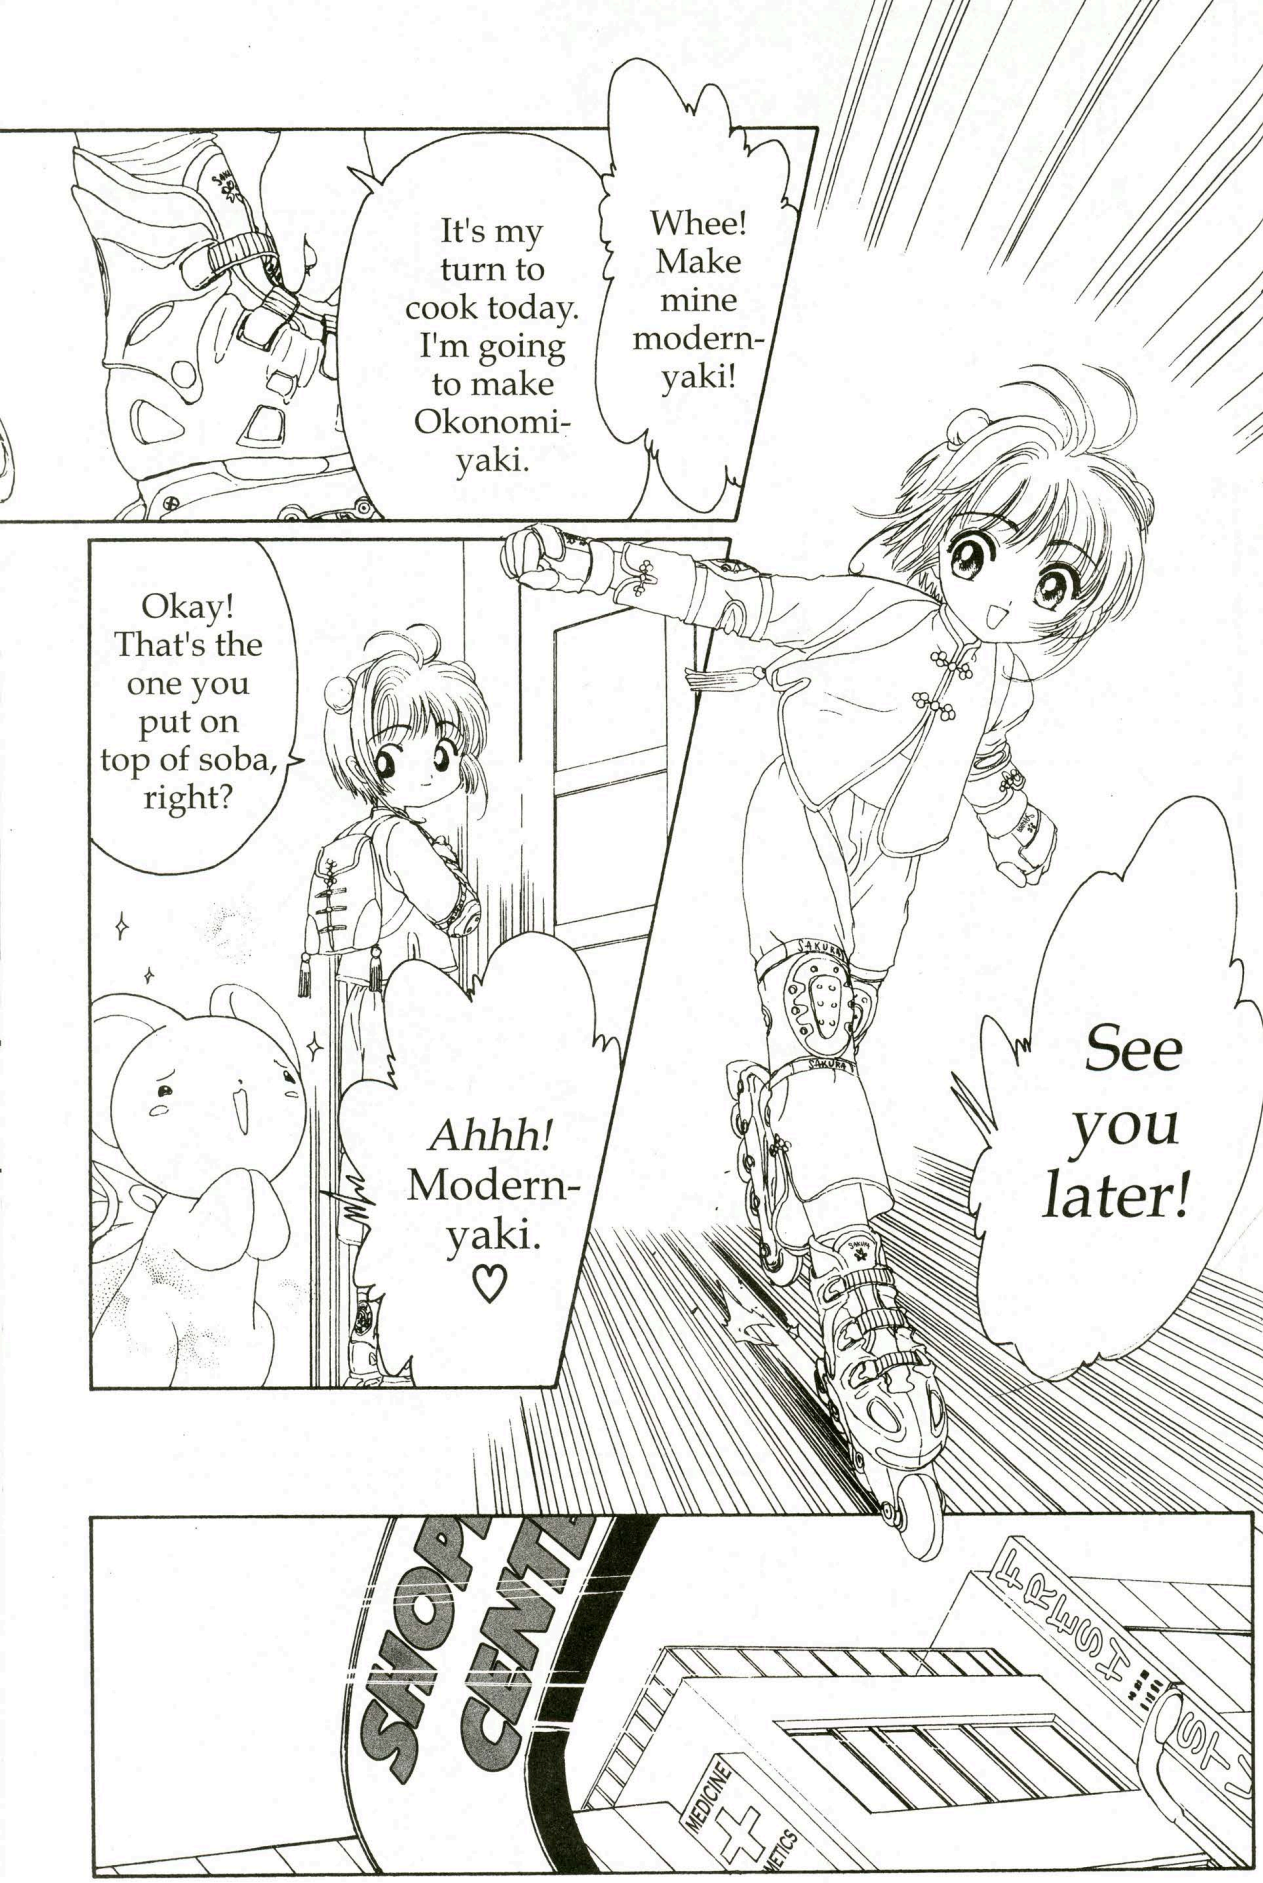
Hey hey...
Dreams are way important-
especially when the dreamer has power. They might be precognitive.
PRECOGNITIVE??
In a nutshell...
It's where you dream 'bout what's going to happen in the future.
You saw a precognitive dream before you captured Fly.
Oh, that.
You must try to remember them.
Okay!



It's my turn to cook today. I'm going to make Okonomi-yaki.
Whee! Make mine modern-yaki!
Okay! That's the one you put on top of soba, right?
Ahhh! Modern-yaki. ♡
See you later!

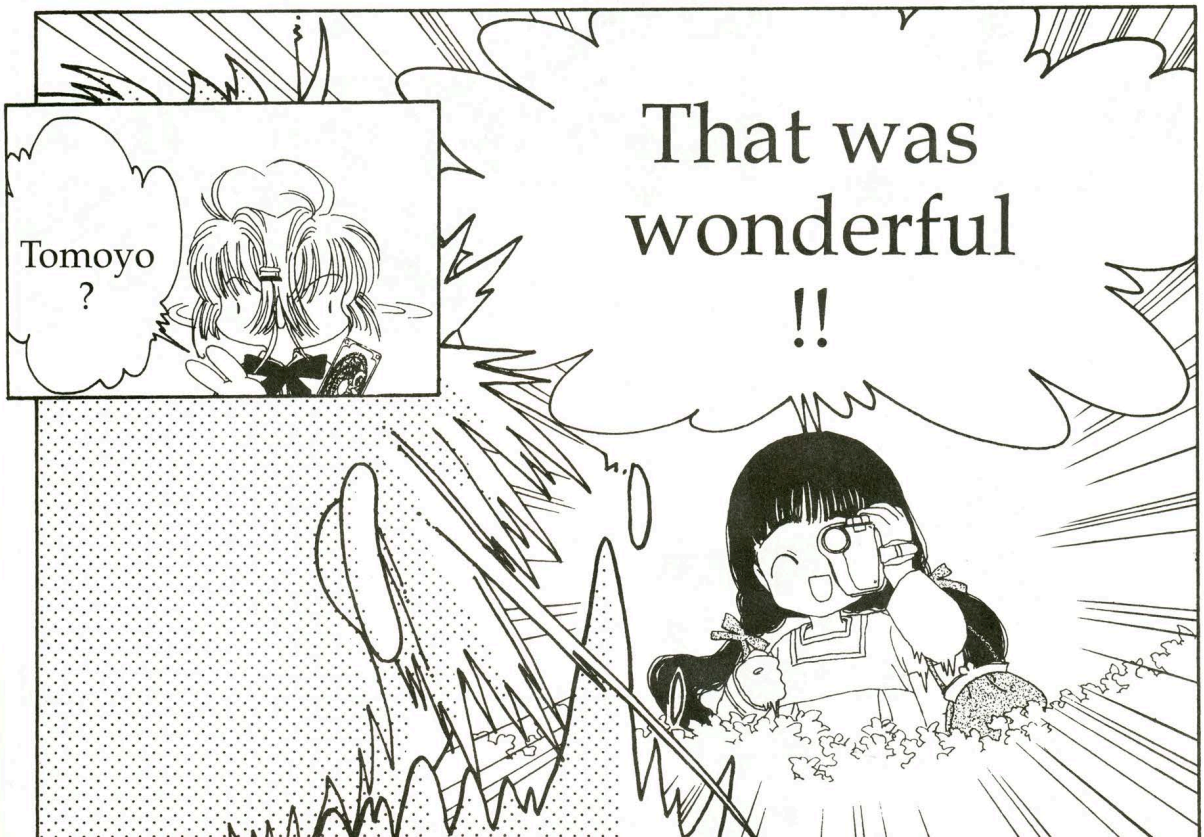
What came after "this could be" in the dream was a Clow Card.



Tomoyo ?
That was wonderful !!

So that was a Clow Card.
Without that dream, I wouldn't have guessed it. I didn't feel its presence at all...
I don't think Li sensed it either.
Yes.

Because of this card...
I had a good time.

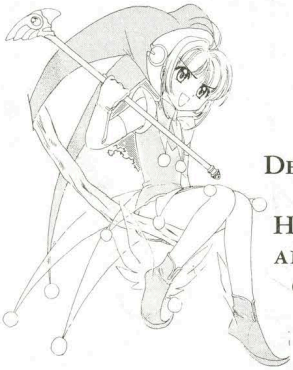
NOTES FROM THE CLOW



Dear Editor,

Hi, I am 10 years old and am crazy about *Cardcaptors*. I love the comics. They are magical. I wanted to know what the Japanese versions of the shows are really like. Also, are there any *Cardcaptor* books?

Michaella S.
Auburndale, MA

Dear Michaella,

Thanks for the kind words! The anime series is a lot like the manga, but the story moves a little quicker. It has the same characters, but some of them are introduced much earlier in the series. There are also two movie follow-ups to the TV show that aren't in the manga. As for Cardcaptor *books, TOKYOPOP has collected our comics into three graphic novels (so far) with more comics and novels to follow! Though there are a lot of art books in Japan, there are no other books as of this time in the U.S. except for our own.*

Dear Editor,

I like *Cardcaptor Sakura*, *Sailor Moon* and *Saint Tail*. Would I be paying too much if I bought Sakura's Star Staff for $60? I bought her first one for $40. Is *Cardcaptor Sakura* still going on in Japan today? Have they made a second movie yet? I paid $15 for the first movie with subtitles. Is there a video game of her in Japan?

Thank you for reading my letter,
Terry B.
Swartzcreek, MI

$60 for a staff? Hmm... I don't know. They're only available as an import from Japan, so you'll be lucky to find them at all in the U.S. Cardcaptor *as a manga series finished in Japan late last year. The second movie premiered around the same time. Both movies might come to the U.S. via* Kids WB, *but it's still in the planning stages. As for* Cardcaptor *games, there is a* Dreamcast *game in which you direct movies of Sakura like Tomoyo, as well as a couple of puzzle games. None of them are likely to come over to the U.S., but you could probably import them from the same place you got your staff.*

That's it for this month! Keep your letters coming and we'll be happy to answer them again! Ja ne!
